

The Court of Last Resort

Around the stove of the cross roads grocery is the real court of last resort, for it finally overrules all others. Chamberlain's cough remedy has been brought before this court in almost every cross roads grocery in this country, and has always received a favorable verdict. It is in the country where man expects to receive full value for his money that this remedy is most appreciated. Obtainable everywhere. (adv.)

NOTICE OF TRUSTEE'S SALE

Whereas, Isaac R. Graham and Emily M. Graham, his wife, of the County of St. Francois, State of Missouri, by their certain deed of trust, dated August 24, 1910, and recorded in the office of the Recorder of Deeds for the County of St. Francois, Missouri, in Book 90 for recording Trust Deeds, at page 183, conveyed to Edward D'Arcy of the City of St. Louis as trustee, the following described real estate situated in said County of St. Francois, State of Missouri, to-wit: The surface of a lot of ground in the Third Addition to the town of Cantwell and designated as Lots Nos. Six (6), Seven (7), Eight (8), Nine (9) and Ten (10) of Block No. Thirty-eight (38) on a plat of said addition on record in the office of the Recorder of Deeds for said county, having a front of 375 feet on the West line of Washington Avenue, by a depth of 140 feet to an alley 20 feet wide and being bounded north by south line of Walnut Street and south by north line of High Street. 100,000 BUSHEL ELEVATOR

J. M. Hahn, the well digger, returned to St. Mary's, Mo., last Monday, where he is engaged in digging a well for the Schaaf Milling Co. at that place. He told us that the well he is digging was then 1675 feet deep and that he is still digging. Mr. Hahn also informed us that the milling company has just let the contract for the erection of another steel elevator—this one to have a capacity of 100,000 bushels of wheat. The old wooden elevator, we understand, will be torn down to make room for the new steel structure. The Schaaf Milling Co. has already six steel elevators, each with a capacity of 25,000 bushels, and with the new one, for which the contract has just been let, that milling firm will have elevator capacity for 300,000 bushels of wheat. That's going some.—Perryville Sun.

DAVIS CROSSING

(Crowded out last week.)

The board of our school will soon be holding an annual meeting, and I wonder why more teachers don't apply for this school, as this is a good one and pays well. Our schools are like everything else—they need new blood infused occasionally. By changing teachers we get some new ideas.

We have just been informed of the death of the wife of one of our former students, Mr. Atto Sanders, now at Harrison, Ark. We extend to the bereaved husband our sincere sympathy and condolence at this time.

In last Friday's contest the following received first honors and second

honors of the preceding divisions, respectively: Lionel Rehkop and Harry Sheets, Mamie Wheeler and Clyde Phillips, John Govro and Lewis Kertz. The record shows that the highest honors of the school are first to Miss Wheeler and second to Mr. Phillips.

In order to accommodate and classify properly the largest number of students the faculty has divided the students contesting into three divisions, namely: Last year's, this year's shorthand, and this year's business or combined students. The same subject matter and time is given to each division, so that honored students of each division may also rank as honor students of the entire school.

Harry Sheets has passed the required examinations in the bookkeeping department, and has been granted the regular diploma. Mr. Sheets has been one of our industrious hard-working students, and the diploma is proper recognition of the efforts put forth by this young man. He has just received a promotion with the Federal Lead Company of Flat River, and his many friends join with the faculty and students in wishing for him a successful, prosperous future.
